

**Study Title:** Cellulite Device (C17-D012)

**Study Location:** Dallas Research Center

**Study Objective:**

This single-center clinical trial is being conducted over the course of 90 days to assess the efficacy of the Sponsor's in-home use device in making skin dimples, ripples, and unevenness appear visually smoother and more even. The device system's impact on the appearance of cellulite conditions will be assessed through the evaluation of women with mild to moderate cellulite condition on at least 2 areas on the thighs and/or buttocks.

**Upcoming screening dates:**

Friday, May 26<sup>th</sup> (1:00PM-4:00PM)  
Wednesday, May 31<sup>st</sup> (1:00PM-3:00PM)  
Wednesday, June 7<sup>th</sup> (12:00PM-3:00PM)  
Monday, June 12<sup>th</sup> (9:00AM-11:00AM)  
Wednesday, June 21<sup>st</sup> (10:00AM-1:00PM)  
Wednesday, June 28<sup>th</sup> (1:00PM-3:00PM)

**Compensation:**

You may be compensated up to \$250.00 for your time and travel.

**Eligibility:**

- Women
- 25-65 years of age
- Mild to moderate cellulite on at least 2 of these areas: front thighs, outer thighs, back thighs, middle buttocks, side buttocks
- Willing to refrain from changing diet and/or exercise routine during course of study
- Having a Body Mass Index < 30 and willing to maintain BMI (+/-1.5)
- Willing to wear a disposable black thong during study procedures
